SUMMARY

Full-stack engineer with 3+ shipped production apps, AI/LLM integration (Gemini, RAG, vector embeddings), and holding real internship impact. Targeting SDE internship roles in backend or applied AI.

TECHNICAL SKILLS

Languages: Python[Advanced], Java[Intermediate], JavaScript (ES6+), TypeScript
Frontend: React (Vite), NextJS, VueJS, Tailwind CSS, Three.js
Backend & APIs: Node.js, NestJS, Express, REST design, JWT auth, WebSockets (basic)
Datastores: MongoDB, SQL Prisma, PostgresSQL, Astra DB (vector embeddings)
Payments & Integrations: Razorpay, Paypal, Cloudinary, Inngest, EmailJS, NodeMailer, Multer
DevOps & Tooling: Git, GitHub Actions (CI), Docker, Vercel / Render, Jenkins, ArgoCD, Devpod, Cron Jobs, Postman
AI & Embeddings: Gemini API, vector embeddings (Astra DB), RAG pipelines, prompt engineering
Other: React Native (Expo) & Flutter(Learning), Redux, Framer Motion, Bcrypt, Puppeteer, ShadCN, ChakraUI, Material UI

EXPERIENCE

Super AGI - Software Developer Engineer Intern (Experience Letter) **Nov 2025 – Jan 2026**
• Eliminated ~40% static assets via audit/cleanup; 900+ files/7k+ lines PR, improving bundle size and accelerating load times.
• Implemented 10+ reusable UI components; increased consistency, reduced duplication, enabled scalable development.
• Resolved 20+ cross-functional bugs across QA, backend, and design cycles; unblocked 5+ release blockers pre-launch
• Shipped features across 3+ services SuperSales (frontend/backend); refactored core UX flows, introducing new capabilities that accelerated key user journeys.

Open-source contributions: SugarLabs (Mar 2025) (Selected PRs #67, #57, #36), GirlScript Summer of Code (Jul-Sep2025) (Selected PRs #186, #345, #143, #198), Hacktober Fest Super Contributor (Oct 2025)

SELECTED PROJECTS

TradeX - Stock Market App · GitHub · Live · Video **Oct 2025 – Nov 2025**
• Launched a full-stack stock market app with **Next.js 15 (Typescript)**, **shadcn/ui**, **Tailwind CSS**, **Better Auth**, **Trading View** and **MongoDB** - featuring real time prices (<250ms), interactive charts, personalized watchlists and profile page.
• Configured **Inngest** event-driven workflows to trigger welcome emails and schedule daily digest delivery; used **Gemini 2.5 Flash** to summarize watchlist-scoped financial news into personalized email digests everyday or set intervals.
• Enforced code quality via **CodeRabbit** PR reviews, **GitHub Actions** lint/build checks, and API endpoint tests; deployed on **Vercel** with scalable background job scheduling and real-time data pipelines.

Attacus & Psyche - NightWalk Booking System (Event Management Platform) · GitHub · Live **Jun 2025 – July 2025**
• Designed and implemented instant payments on **Node/Express** integrating **Razorpay** with idempotent endpoints and server-side validation to guarantee transactional safety.
• Designed a **JWT auth** + role-based admin dashboard (**React + Tailwind**) to manage bookings, refunds and user messages;
• Optimized booking flow with client optimistic updates and server retry logic - eliminated booking completion time by 70%.
• Established CI/CD pipeline (GitHub Actions) runs lint, tests, build, stages Vercel Deploy; Eliminated 6-7 hours of time wasted.

EDUCATION

Kalvium UG program at RV University - BCA (Hons) in software product engineering **2024–28**

CERTIFICATIONS

- **HackerRank:** Frontend Developer(React), SQL(Basic), REST API(Intermediate), Python(Basic), Problem Solving(Basic), CSS(Basic)
- **FreeCodeCamp:** Backend Development and API
- **Microsoft Learn:** Fundamentals AI Concepts, Azure AI Fundamentals, Fundamentals of Azure AI services
- **Other:** Postman API fundamentals Student Expert, Docker for absolute beginners (KodeKloud),

ACHIEVEMENTS & LEADERSHIP

• **1st** Place — Codeverse Challenge (Google Developer Groups, RVU)
• **2nd** Place — Campus LeetCode Challenge (RVU)
• Recipient of RV University Merit Scholarship Graduated first year with CGPA: 9.77/10 and SGPA: 10.0/10.0 (Link)
• Smart India Hackathon intra college qualifier - SIH (RVU)
• Participant - Prompt Repo Hackathon (Gemini API)
• **Campus roles**: Student Coordinator, Communication Chair, Head of IT, Head of Photography & Documentation and Core Member at The Green Alliance RVU, Core Member / Lighthouse at Kreators Club of Kalvium x RV University.
• Class Representative (2024–25)
